Certificate of Analysis

Product	(7,5)-SDC-70	**Lot #**	095-114-170926
Customer		**Compilation Date**	9/30/2026
Customer PO #		**Quote Date**	

Specification	**Expected**	**Observed**
Appearance	Blue, light blue at 10x dilution	
Dispersant	Sodium deoxycholate, 1%	
Absorbance spectrum - E11 transition wavelength	1122 nm (SDS)	1031 nm
Absorbance spectrum		
Total dry CNT mass**	10 µg	

INTEGRATED
CARBON NANOTUBE
TECHNOLOGIES

Integrated CNT Technologies Corporation
110 Canal St., Ste 4
Lowell, MA 01852

Total sample volume, mL	0.28 mL

* CNT dry mass estimated using the formula " Mass = OD_{E11} * 5 * Volume " where Mass is in µg, OD is measured on a 10 mm path length and Volume is in mL.

The information presented in this Certificate of Analysis is believed by Integrated CNT Technologies Corp. to be accurate at the time of preparation.

Signed,

_____
